Only three juniors braved the very strong southerly gale that was blowing to fish the first match of the Jurassic League, though it was windy and cold the rain held off.

Robbie managed to catch the first fish of the day with an 68g pout, but Eden was lucky to catch one of 76g which was sizable and pushed him in 1st place. Eden also caught a codling, this is a first for the Saturday Junior comps, it was a shame it was a very small one of 17g and was put back alive to hopefully grow bigger. So, it looked like the top two places were settled, and was looking like Caolan would take the wooden spoon as he had not caught a fish, but right on the whistle he reeled in a 31g pout which gave him 3rd prize.

Species caught on the day were; rockling, pout, cod & whiting.
