Four juniors and one guest signed on to fish the first match of the year, the Fred Tolley Memorial Trophy.

Low tide was at 11:51am so the competitors started to fish the competition in very shallow water, this did not bode well for catching fish. But with-in the first thirty minutes a fish was caught, and though not a great many fish were caught all the entrants managed to catch.

Even a couple of legal fish were caught both three bearded rocklings. All the fish caught by the juniors are weighed in then returned alive to the water, in the competition legal sized fish always take precedence over non-legal, that is why a junior with a legal weight that may be less than a junior with a greater non-legal will be placed in a higher position. (to be legal a fish must be equal or greater length than the minimum size laid down by the Angling Trust).

Last year's winner Aaron Chambers had high hopes of regaining the trophy but Robbie Hall had other ideas, Robbie had a great days fishing not only catching the most fish, ten in all, but also the heaviest single fish.

Species caught were; shanny, wrasse & rockling.
