Weather	Cloudy with occasional sunny spells, chilly south-south westerly 9mph wind. The sea was dirty in the harbour due to the dredging taking place.			

Saturday saw the juniors fishing again on the East Pier, West Bay. the dredger operating in the harbour definitely affected the fishing and it was tough for the 13 anglers who turned out to fish. The coloured water and steel cables restricted the fishing with only 12 fish being weighed and a couple more lost at the surface. It was good to see 4 Flounders including one particularly good fish. Species caught were Flounder, Pout, Pollack and Shanny.

As ever I'd like to thank Angling Centre West Bay for all their support, also Devon Baits for the top quality frozen bait, Norman Stokes for giving out great advice and keeping everyone in bait and rigs and Richard Tiny Daw for manning the scales and donating the heaviest Flatfish prize.
