Yesterday marked the first match of the Jurassic League and also the rollover of the Juniors vs parents match from the match cancelled due to the weather in September, it was a lovely afternoon-the fishing was great with 11 species caught, as was the atmosphere! There were several Mullet hanging around and mouthing the baits of many of the anglers which kept everyone enthusiastic right the way through as well as the deluge of fish caught throughout the match.
Species caught were:
Golden Grey Mullet, Ballan Wrasse, Corkwing Wrasse, Pollock, Whiting, Weeve, Gilthead Bream, Smelt,
Dragonet , Shanny, Tompot.

The number of Lesser Weevers was notable through the first hour or so with the Whiting and Pollock coming on as the tide dropped away.

Results were as follows:
First fish-Chelsea Pearce, 183g Ballan Wrasse
Most fish-Lillie Rose Clarke with an incredible 34 fish
Smallest fish-Ashton Gardner, 2g Weaver
Heaviest Round fish-Ross Bourne with a 847g Golden Grey Mullet

Junior results:
Third place with 741g was Lillie Rose Clarke
Second place with 880g was Chelsea Pearce
First place with 1673g was Ross Bourne

It was no surprise that the juniors won with the total weights they had and great to see them win back the trophy with a 1-2-3. overall.

The wooden spoon was drawn and won by Emily Carter

As ever, none of this would be possible without the support of Tom Marley at Angling Centre West Bay, Richard "Tiny" Daw who after weighing massess of fish here went on to sign on for the match in Weymouth until gone midnight and Norman Stokes who kept everyone baited up and tangle free. Huge thanks to you all and we look forward to seeing you all again on 15th November for the next match, 12-3 on the East Pier.

Winner Ross with one of his Golden Grey Mullet

All the entrants and helpers.
